

NIHAR DHUMAL

Computer Science Student

Mumbai | 9892739527 | nihardhumal26@gmail.com

SKILLS

- Python (Strong Fundamentals)
- Data Structures (Lists, Dictionaries, Stacks, Queues, etc.)
- Html/CSS (Currently Learning)

EXPERIENCE

Fresher – Looking to get to know real-world experience of programming language.

EDUCATION

BSc – Computer Science, Bhavans College (2025 – Present)

12th Percentage – 67%

10th Percentage – 79.6%

PROJECTS

Python Café Ordering System

- Designed and implemented a menu-driven café ordering application using Python.
- Used dictionaries for menu storage and pricing with scalable structure.
- Implemented input validation and error-handling for incorrect selections.
- Applied loops, conditionals, and dynamic bill calculation.

Rock–Paper–Scissors Game (Python)

- Built a command-line RPS game implementing core game logic and user interaction.
- Used random module for dynamic computer moves.
- Added input validation and clear outcome messaging.
- Demonstrated strong use of dictionaries, loops, and conditional logic.

CERTIFICATIONS

- I do not have any course certifications.

LANGUAGES

English
